### MESSAGE FROM THE DESK OF PRINCIPAL

While the India is rapidly achieving its position as a superpower on the world map, this Government Polytechnic, Waghai, was established in 2006 with the noble cause of providing opportunities to study engineering to forest tribal students. Then after, in 2010, the college started functioning at Waghai as the building was constructed by the Government at Waghai.

The Mechanical Engineering branch was started here with the aim to avail the forest tribal students the opportunity to learn the Mechanical engineering. During the last 14 years, the students who passed through this institute have created many jubilant careers, many have advanced in higher studies, many have been employed in companies, and many have started their own businesses. While many students have migrated to the abroad. The staffs here feels very much proud of the missionary work that they have wonderful opportunities for invaluable development of the country through the development of very low level forest tribal students.

“Design is not how it looks like and feels like. Design is how it works” – Steve Jobs
