The session was ended with the interaction among the speaker and present students.

About the Seminar:

Intellectual Property Rights (IPR) protection plays a key role in gaining an advantageous position in the competitive technology world for achieving economic growth. Thus, information on various technological advancements should be disseminated to the users of technology in order for our country to develop faster. Thus, a culture to make aware of development of technology to pertinent users is essential. This has become more pronounced in the globalized economy with international agreements and obligations in the fields of IPR in the WTO regime.
